## **3. Ball For Baby**

Here's a ball for baby, nice and small and round  
And here are baby's hammers, pound, pound, pound  
And here is baby clapping: Clap and clap like so...  
And here are baby's soldiers, all in a row.  
And here is baby's trumpet: Toot toodlootootoo!  
And here is baby hiding....peek-a-boo!  
And here is an umbrella, to keep the baby dry....  
And this is how we go to sleep....rock....a....bye!

## **4. Transportation**

I see a little car...its wheels go round and round....I like to watch the car drive all around the town, and it goes: Beep, beep, beep.  
I see a great big truck...its wheels go round and round....I like to watch the truck drive all around the town, and it goes: Honk, Honk, Honk.  
I see a little bicycle....its wheels spin round and round.....I like to watch the wheels spin all around the town, and they go: Spin, spin, spin.  
I see a great big airplane....its wings fly all around....I like to watch the plane fly all around the town, and it goes: Zoom, zoom, zoom!  
What kinds of transportation do you really love? What kinds of transportation sounds can you think of?

## **5. What's the Weather?**

What's the weather? What's it like out today, What's the weather, what's it like out outside?

Is it raining, snowing cold or hot? Is it sunny out or not (or not?)

Is it windy, cloudy stormy or grey?

What's the weather like today (today)?

This is my right side, this is my right side, my right side is on my right.

This is my left side, this is my left side, my left side is on my left.

## **7. Finger Shapes**

These are shapes that I make with my fingers all by myself:

This is how I make a circle, a little circle, all by myself

This is how I make a diamond, a little diamond all by myself

This is how I make rectangles, little rectangles, all by myself

What shapes can you make, what shapes do you know, what shapes can you see?

If we make some shapes together, what shapes do you think that you could make for me?

This is how I make an oval, a little oval, all by myself.

This is how I make triangles, little triangles all by myself....all by myself.

Traffic lights, we're talking 'bout the traffic lights....  
Red, it always means that you don't go. Yellow, sometimes means that you go slow. Yellow, also can mean no, no, no, and dananana.....green means go!

## 14. Swing Set

There is a swing set where I always go. I see my swing set right out my window....my swing set!

Old things to practice and new things to try....I will go flying up high in the sky! My swing set!

I will climb around....and hang upside down....I will dream of everything when I am on my swing.....swing set!

Swing set, my swing set, that's where I will be. Swinging and singing and just being me. My swing set, my swing set, my swing set, my swing set!

## 15. Wonderful You

Remember the good things that make you yourself. You never have to try to be like anyone else....or have to try to fit in. Stop and appreciate, let all the positive in.

All that you've done and learned, all that you've seen. Nobody else can be all of the things you have been. So hold up your chin!

You, only be you. You, wonderful you. Remember that what makes you you is why people love you!

Different is better than being the same. Sometimes life can be just like playing a game. You have to play the right part. You can change your direction or even just play it by heart.

Learn from your lessons and rise above. Trust in yourself and remember the people you love-- They'll always be in your heart.....forever!

You, always be you (all the things you can be)....you, wonderful you (you are special to me) ....remember that what makes you you is why people love you!

What goes around comes around, make the right choice. The people in your heart are part of your voice. Be grateful for who you have and who you are, because you are....

You , always be you (all the things you can be)....you, beautiful you (you're so special to me) ....remember that what makes you you----is why I love you.
